Front End: Task Four

Your task for this week is to implement the Ui design shown below.

This week you'll putting all three skills together, Html, CSS and JavaScript.
As a frontend developer, the first required skill is to give back a pixel perfect implementation of any given design.
To pass this week's task, your work must be at least 70% perfect to the given design.

Task Break Down

- ✓ Page must be full width, no scrollbars
- ✓ Minimum of 70% implementation
- ✓ Use JavaScript to change the background color of the page when I user clicks on the color choice.
- ✓ Your webpage must be mobile responsive

Colors:

Background: #0392BF

Pink: #ED48BA

Yellow: #FBEC06

Grey: #B3D4E0

Please use these colors. Submit a live link to your project and a link to the repo.
Both design and Skate image would be sent to the channel. Cheers! Realice 😎
Happy Coding 🤩 💗

Submission Date: On or Before Friday, 6TH Nov, 2020.
Time: 2pm
